Report on the Financial Statements

We have audited the accompanying Statements of Fiduciary Net Position and Statements of Changes in Fiduciary Net Position of the Washington Suburban Sanitary Commission's Retiree Other Postemployment Benefits Plan (the Plan), a component unit of the Washington Suburban Sanitary Commission, as of and for the years ended December 31, 2020 and 2019, and the related notes to the financial statements, which collectively comprise the Plan's basic financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Plan as of December 31, 2020 and 2019, and the changes in its financial position for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis (MD&A), the schedule of changes in net OPEB liability and related ratios, the schedule of employer contributions, and the schedule of investment returns be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 20, 2021, on our consideration of the Plan's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Plan's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Plan's internal control over financial reporting and compliance.

**WASHINGTON SUBURBAN SANITARY COMMISSION
RETIREE OTHER POSTEMPLOYMENT BENEFITS PLAN
MANAGEMENT’S DISCUSSION AND ANALYSIS (UNAUDITED)
YEARS ENDED DECEMBER 31, 2020 AND 2019**

This Management’s Discussion and Analysis (“MD&A”) of the financial activities of the Washington Suburban Sanitary Commission Retiree Other Postemployment Benefits Plan (the “Plan”) is an overview of its fiscal operations for the years ended December 31, 2020 and 2019. The Plan is a single-employer plan of the Washington Suburban Sanitary Commission (“WSSC Water”). Readers are encouraged to consider the information presented in conjunction with the financial statements and the notes to the financial statements. Amounts contained in the discussion have been rounded to facilitate their readability.

Overview of Financial Statements

The financial statements and the required disclosures are presented in compliance with the accounting standards and reporting guidelines as set forth by the Governmental Accounting Standards Board (“GASB”), utilizing the accrual basis of accounting. The financial statements of the Plan are presented on a comparative basis with the previous fiscal year.

The Plan has two financial statements and the notes to the financial statements. The Statement of the Fiduciary Fund Net Position is a snapshot of account balances at fiscal year-end. The Statement of Changes in Fund Net Position reflects all the activities that occurred during the fiscal year, and the impact of those activities on the Plan’s net position.

The notes to the financial statements provide a detailed discussion of key policies and activities that occurred during the fiscal year. The notes provide additional information that is essential to a full understanding of the data provided in the financial statements.

Required Supplementary Information is also disclosed which includes additional information on the Plan’s financial condition and trends, including information on employer contributions, actuarial assumptions, funding status and investments.

2020 Financial Highlights

- Net position restricted for postemployment benefits other than pension (“OPEB”), as reported in the Statements of Fiduciary Fund Net Position, total \$180.5 million, an increase of \$30.0 million or 19.9% from prior year.
- Total additions of \$44.7 million, as reflected in the Statements of Changes in Fiduciary Fund Net Position, decreased by \$1.7 million due to the decrease in contributions and a slight increase in investment gains.

Fiscal Year 2020

The Plan’s net position increased by \$30.0 million or 19.9% because of investment income of \$26.7 million and contributions of \$18.0 million less OPEB expenses of \$14.7 million. The increase in investment income is due to the returns from Vanguard Wellington, Vanguard Total Bond, Vanguard International Stock, Vanguard Total Stock Market Index and T.Rowe Price Global Growth funds.

As of December 31, 2020, the Plan had \$180.5 million in net position held for other post-employment benefits compared to \$150.5 million as of December 31, 2019, an increase of 19.9%. There were no liabilities at December 31, 2020 or 2019.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)
YEARS ENDED DECEMBER 31, 2020 AND 2019**

Fiscal Year 2020

WSSC Water Cash Contributions to the Plan decreased by \$2.1 million or 40.0% from \$5.4 million in fiscal year 2019 to \$3.3 million in fiscal year 2020. This decrease is due to the change in payment frequency of the cash contributions from lump-sum in early July of the audited year to an equal ten payments from July 2020 to April 2021, with all payments occurring within the Commission's Fiscal Year 2021. The change was implemented as part of a plan to improve the Commission's liquidity as WSSC Water customers were impacted by the spread of the Coronavirus Disease (COVID-19) a worldwide pandemic.

Net investment income, which is comprised of net appreciation in the fair value of investments, dividends and interest income, less investment expenses, increased by \$1.4 million or 5.7%, from a net investment income of \$25.3 million in fiscal year 2019 to \$26.7 million in fiscal year 2020. The net investment income is due to the overall positive performance of the funds. Dividends and interest increased by \$2.5 million or 60.7%, from \$4.2 million for fiscal year 2019 to \$6.7 million in fiscal year 2020. Net appreciation in the fair value of investments decreased by \$1.1 million or 5.0%, from \$21.2 million for fiscal year 2019 to \$20.1 million in fiscal year 2020.

Fiscal Year 2019

WSSC Water Cash Contributions to the Plan decreased by \$4.6 million or 45.8% from \$10.0 million in fiscal year 2018 to \$5.4 million in fiscal year 2019. This decrease was the result of a long-range actuarial funding study, and, when combined with all other contributions, still exceeds the Actuarially Determined Employer Contribution of recent years.

Net investment income, which is comprised of net appreciation in the fair value of investments, dividends and interest income, less investment expenses, increased by \$34.0 million, from a net investment loss of \$8.7 million in fiscal year 2018 to net investment income of \$25.3 million in fiscal year 2019. The net investment income is due to the overall positive performance of the funds. Dividends and interest decreased by \$3.6 million or 46.4%, from \$7.8 million for fiscal year 2018 to \$4.2 million in fiscal year 2019. Net change in the fair value of investments increased from a net depreciation in fair value of investments of \$16.5 million in 2018 to a net appreciation in fair value of investments of \$21.2 million for 2019.

Other Information

The Plan's actuarially determined target investment return is 7.0% net of expenses, lowered from the 7.5% chosen at Plan inception. Administrative expenses and benefit payments are currently handled on a "pay-as-you-go" basis by WSSC Water. Investment expenses are paid from the Plan. For presentation purposes, benefit payments are shown as an expense of the Plan, however these payments are made on behalf of the Plan by WSSC Water. Retiree contributions are also withheld from the retiree's monthly pension payments and are utilized to pay plan premiums also paid by WSSC Water. These amounts are also recorded on the financial statements.

The fair value of the Plan's assets, and its investment gains and losses are also reviewed at least biannually by an actuary to determine viability of the Plan.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019**

NOTE A. DESCRIPTION OF THE PLAN

General Information

The provisions of postemployment benefits are determined under a set of personnel policies (herein referred to, collectively, as the “Plan”). The Plan and its underlying trust, a single employer defined benefit plan, was established in 2007 to provide life insurance, healthcare and prescription drug benefits for Plan participants and beneficiaries of the WSSC Water under conditions set forth in the Trust Agreement, including the payment of reasonable administrative expenses. WSSC Water employees are eligible to continue group insurance coverage after retirement provided that retiring employees have had coverage in effect for two years prior to retirement.

Benefits Provided

The Plan pays 70-80% of the full premium for medical and prescription drug coverage for eligible participants and qualified dependents. In addition, employees who retired in 1982 and after are eligible for life insurance benefits. The amount of retiree life insurance coverage begins at 85% of the employee’s salary as of the day immediately prior to retirement, and decreases over a four-year period, until coverage equals either 25% of that salary or \$5,000, whichever is greater.

Plan Membership

As of December 31, 2020, and 2019, there were 1,686 and 1,667 active employees and 1,681 and 1,662 retirees, respectively. WSSC Water has the right to amend the Plan Fund Agreement.

Member and Employer Contributions

WSSC Water contributes to the Plan as it deems appropriate based on biennial actuarial valuations performed by an independent actuary and consistent with the Actuarial Determined Employer Contribution. WSSC Water made cash contributions of \$3,251,287 and \$5,418,812 for the years 2020 and 2019, respectively.

RETIREE OTHER POSTEMPLOYMENT BENEFITS PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019**

NOTE A. DESCRIPTION OF THE PLAN (continued)

Member and Employer Contributions (continued)

The Plan recognizes revenues and expenses for employee payments made by WSSC Water related to benefits payments and administrative expenses. Accordingly, the Plan has included "on behalf" payments made by WSSC Water during the fiscal years 2020 and 2019 of \$14,727,525 and \$15,715,829, respectively.

Plan Termination

In the event of the Plan termination, Plan assets shall be allocated for the payment of benefits and administrative expenses in accordance with the Plan and Trust Agreement.

NOTE B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity and Basis of Accounting

The reporting entity consists of the Plan, which is a component unit of the WSSC Water. The financial statements of the Plan are presented using the economic resources measurement focus and the accrual basis of accounting. Member contributions are recognized as revenue in the period in which the contributions are due. Employer contributions are recognized when due and a formal commitment has been made to provide the contributions. Benefits and refunds are recognized when due and payable. Investment income is recognized when earned.

Reclassification

The administrative fees for year 2019 have been reclassified to investment expenses to agree to 2020 investment expenses presentation.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Plan considers all cash and highly liquid investments with an original maturity of three months or less to be cash and cash equivalents.

**WASHINGTON SUBURBAN SANITARY COMMISSION
RETIREE OTHER POSTEMPLOYMENT BENEFITS PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019**

NOTE B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fair Value Measurements

The Plan categorizes fair value measurements within the fair value hierarchy established by GASB Statement No. 72, *Fair Value Measurement and Application*. The valuation technique uses a three-level hierarchy of inputs to measure the fair value of the asset and gives the highest priority to unadjusted quoted prices in active markets (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). These classifications are summarized as follows:

Level 1 Inputs: Quoted prices (unadjusted) for identical assets or liabilities in active markets that a reporting entity can access at the measurement date.

Level 2 Inputs: Inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly or indirectly.

Level 3 Inputs: Unobservable inputs for an asset or liability.

In the event that inputs used to measure the fair value of an asset or liability fall into different levels in the fair value hierarchy, the overall level of the fair value hierarchy in its entirety is determined based on the lowest level input that is significant to the entire valuation. These levels are not necessarily an indication of risk but are based upon the pricing transparency of the investment.

Fair value of certain investments that do not have a readily determinable fair value is established using net asset value (or its equivalent) as a practical expedient. These investments are not categorized according to the fair value hierarchy.

Net appreciation (depreciation) in the fair value of investments reflected in the Statements of Changes in Fiduciary Net Position includes realized gains and losses on investments that were sold during the year and unrealized appreciation (depreciation) in the fair value of investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

NOTE C. DEPOSITS

Custodial Credit Risk is the risk that in the event of a bank failure, the Plan's deposits may not be returned to it. The Plan does not have a policy for custodial credit risk for deposits and the balance of \$105,354 and \$113,650 at December 31, 2020, and 2019, respectively were money market funds that were uninsured and uncollateralized.

NOTE D. INVESTMENTS

Investment Policy

The Plan's investment policy and any changes to the policy are adopted by the Board of Trustees of the Plan. The current policy was approved in June 2018 and contains long-term asset allocation ranges. The policy was amended in August 2020 to incorporate environmental, social, and governance provisions.

The primary objective of the investment policy is to assure that assets will be available to pay postemployment benefits throughout the life of the Plan and to maintain or improve the market value of the fund relative to vested and accrued benefit liabilities. The objectives seek to preserve the actuarial soundness of the Plan by achieving a long-term return of at least the actuarial return rate and to prudently manage the inherent investment risks that are related to the achievement of this goal.

Long-term asset allocation ranges are developed based on several factors including: the long-term investment goals of the Plan; the Trustee's tolerance for short-term losses; the Plan's liquidity needs; and any legal or regulatory requirements.

- Custodial Credit Risk is the risk that the Plan will not be able to recover the value of its investments if the counterparty fails. The Plan's mutual fund investments are not subject to custodial credit risk for 2020 and 2019 in accordance with *GASB Statement No. 40, Deposit and Investment Risk Disclosures—an amendment of GASB Statement No. 3* as the investments are open-end mutual funds.
- Credit Risk is the risk that an issuer to an investment will not fulfill its obligations. As of December 31, 2020, and 2019, the Plan held one fixed income fund as of June 30, 2020 and 2019, the Vanguard Total Bond Index which was not rated.

**WASHINGTON SUBURBAN SANITARY COMMISSION
RETIREE OTHER POSTEMPLOYMENT BENEFITS PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019**

NOTE D. INVESTMENTS (continued)

- Interest Rate Risk is the risk that changes in interest rates will adversely affect the fair value of an investment. As of December 31, 2020, and 2019, the Plan held no direct investments in debt securities and was not exposed to interest rate risk, other than securities held and managed via mutual funds. The average effective maturity for the Plan's Vanguard Total Bond Fund was 8.6 years in December 2020 and 8.1 years in December 2019.
- Foreign Currency Risk is the risk that changes in exchange rates will adversely affect the fair value of an investment in a foreign financial institution. The Plan mitigates this risk by limiting its investments in funds with foreign exposure. The underlying assets of the Vanguard Wellington Fund Admiral are generally in domestic stocks and bonds; however, the T.Rowe Price Global Growth and Vanguard International Stock Funds are invested in foreign assets that may be exposed to exchange rate changes.
- Concentration Risk is the risk of loss attributed to the magnitude of the Plan's investment in a single issuer. The following investments represent over 5% of total investments with a single investor as of December 31:

	2020		2019	
	Investment	%	Investment	%

Rate of Return

For the year ended December 31, 2020 and 2019, the annual money-weighted rate of return on OPEB plan investments, net of expense, was 17.6% and 20.8%, respectively. The money weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts invested.

NOTE E. TRUSTEES OF THE FUND

WSSC Water established a Board of Trustees for the Plan to be responsible for the investment management of the Trust's assets for the exclusive benefit of the Trust participants. A Trust Agreement governs the trustees. The agreement provides for Trustees to be appointed by WSSC Water and, per the terms of WSSC Water Adopted Resolution 2015-2076, and updated per the terms of WSSC Water Adopted Resolutions 2017-2135, 2019-2205, and 2019-2229, the Board has been re-appointed for a four-year term which commenced on July 1, 2019.

The administration of the Trust has been delegated to the Executive Director of the Washington Suburban Sanitary Commission Employees' Retirement Plan, who is appointed by the WSSC Water.

Healthcare cost trend rates for 2020 and 2019 were as follows:

Year	UHC POS (Pre-65)	UHC EPO/HMO (Pre-65)	Medicare Plus/Supplement
2019	6.50%	7.00%	4.50%
2020	6.25%	6.75%	4.25%
2021	6.00%	6.50%	4.00%

2026	4.75%	5.25%	4.00%
2027	4.50%	5.00%	4.00%
2028	4.25%	4.75%	4.00%
2029 +	4.25%	4.50%	4.00%

Mortality rates were based on the RP-2000 Blue Collar Healthy Annuitant Mortality Tables for Males or Females, with one year set forward, and projected to 2025 using Scale BB. The RP2000 Disabled tables were used for the valuation of disabled lives.

The actuarial assumptions used in the 2019 valuation were based on an actuarial experience study performed in 2016.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

This is then modified through a Monte-Carlo simulation process, by which a (downward) risk is applied to the base line expected return.

Discount rate

The discount rate used to measure the total OPEB liability was 7.0%. The Plan's funding expectations/policy is to contribute approximately \$5.4 million in each Commission's fiscal year to the OPEB Trust, in addition to paying benefits for retirees. Based on those assumptions, the OPEB Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the expected trust return on OPEB plan investments was applied to all periods of projected benefits payments to determine the total OPEB liability.

NOTE H. RISKS AND UNCERTAINTIES

The Plan may invest in investment securities that are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the Statements of Fund Net Position.
