

#### ASPEN HILL SEWER MAIN REHABILITATION PROJECT

Project No. CRCILR7366B22

June 28, 2023

#### Agenda

- Introduction to Project Team
- Sewer Rehabilitation Program Overview
- Project Overview
- Project Map

- Sewer Rehabilitation Methods
- Estimated Construction Schedule
- What to Expect During Construction
- Questions & Answers

#### **Project Team**

- Jose Fuentes, Design Project Manager (301) 206-8587, Jose. Fuentes@wsscwater.com
- Francell Reed, Construction Manager (301) 206-7363, Francell.Reed@wsscwater.com
- Thomas Johnson, Project Outreach Manager (301) 206-8542, Thomas.Johnson@wsscwater.com
- Brandon Stewart, Customer Advocate (301) 642-1712, Brandon.Stewart@wsscwater.com
- Johnson, Mirmiran & Thompson, Inc, Engineering Design Consultants
- SAK Construction, LLC, Construction Contractor

#### WSSC WATER AT A GLANCE

Established in 1918, WSSC Water is the largest water/wastewater utility in Maryland and among the largest in the nation. Our service area spans approximately 1,000 square miles in Prince George's and Montgomery counties. We proudly serve 1.9 million residents with safe and reliable drinking water and help protect the Chesapeake Bay by treating and returning clean water back to Maryland waterways.

Accologie,

#### WSSC WATER AT A GLANCE

\$5.3 MILLION RNANCIAL ASSISTANCE TO 12,345 CUSTOMERS SINCE THE PANDEMIC BEGAN. (VISIC WATER, FEDERAL, AND STATE PROGRAMS)

17,343 RESIDENTS ENROLLED IN OUR CUSTOMER ASSISTANCE PROGRAM IN FY 2022. (SI.E HILLION BENEFIT TO ENROLLEES)

\$ 1.6 BILLION FY2024

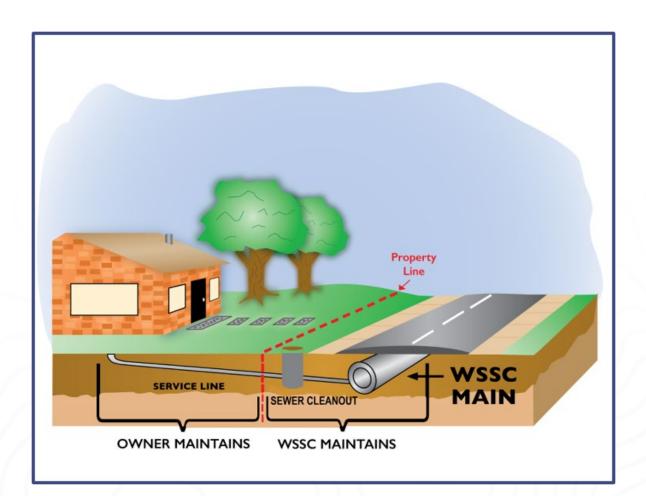

## **Project Overview**

- WSSC Water is strategically replacing and rehabilitating aging infrastructure throughout service area.
- Project includes replacing approximately **<u>2.36 miles</u>** of sewer mains and house connections to property line.
- Approximately <u>63</u> manholes will be rehabilitated or replaced.
- Sewer pipes and manholes rehabilitated using primary trenchless methods, however those in very poor condition will require excavation to repair and replace.
- Completed project will extend life of sewer pipes by at least 50 years.

#### **Project Overview cont.**

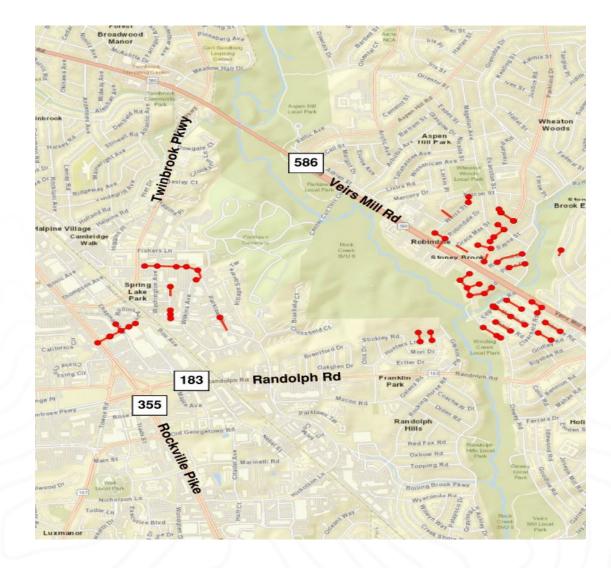

- New sewer mains installed and rehabbed within roadways.
- Sewer house connections (up to the property lines) replaced and reconnected.
- Replacing existing pipes provides for correcting structural deficiencies in sewer mains that may result from soil settlement, root penetration or corrosion, and often contribute to sewer overflows and backups into homes.

# **Project Map**

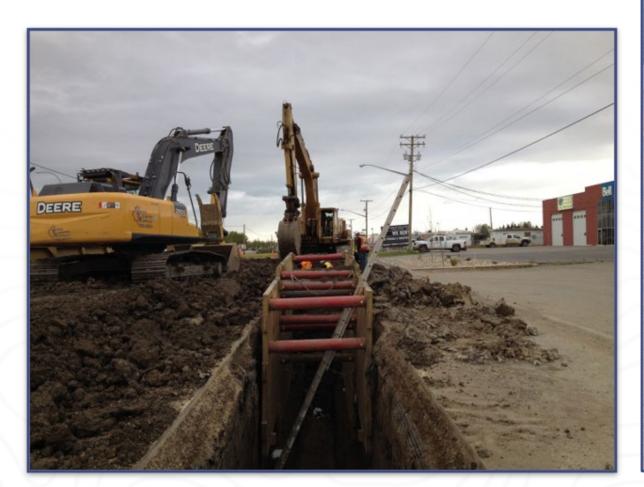

#### **Directly Impacted Streets**

Adrian Street	Furman Court	Plaza Pl
Bayne Street	Furman Road	Robindale Dr
Bou Avenue	Gaynor Road	Rockville Pike
CARROLL AVENUE	Havard Street	Rosebud Drive
CHAPMAN AVENUE	Hunters Court	Selfridge Road
Charles Road Parkway	Hunters Lane	Turkey Branch
Clearfield Road	KRAFT DRIVE	Veirs Mill Road
Danvers Court Avenue	LITTLETON STREET	Washington
Dewey Road	Middle Road	WILKINS AVENUE
Edgebrook Road	Nordlie Drive	WEISS ST
Evanston Street	Parkland Drive	Falcon Street
PARKLAWN DRIVE		

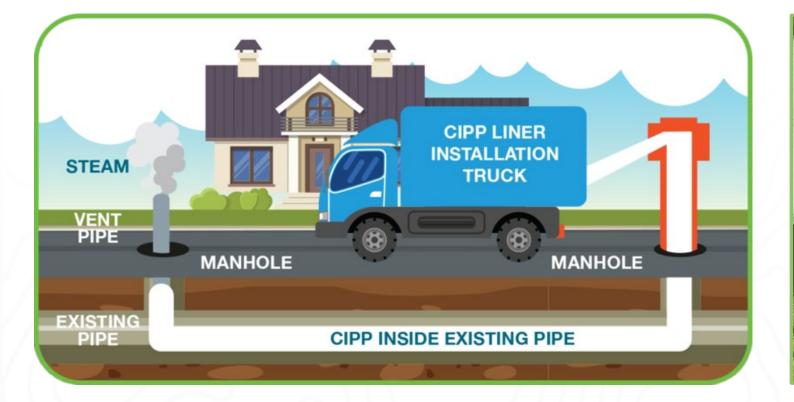

#### Sewer Rehabilitation Method: Open Trench

#### Sewer Rehabilitation Method: Pipe Lining

#### **Manhole Rehabilitation**

#### **Tree Removal and Pruning**

- Per the Department of Natural Resources Maryland Forest Service Public Agency Tree Maintenance Permit, construction methods that minimize tree impacts must be examined.
- Prior to final decision to remove a tree, WSSC Water considers the following factors:
  - Size, species and structural condition of the tree
  - Impact tree will have on utility assets
  - Feasibility of relocating infrastructure or using trenchless methods
- WSSC Water Urban Forester supervises all tree removal and pruning.

Pipes and Trees Do not Mix!

#### **Estimated Construction Schedule**

- Expected Construction Start Date: Fall 2023 (Pending Permit Acquisition)
- Estimated Construction Duration: 16 Months
- Expected Construction Finish Date: Spring 2025 (Weather Permitting)

Construction schedules are estimated and weather permitting

#### What to Expect During Construction

- Anticipated Work schedule: 9:00 a.m. to 3:30 p.m., Monday-Friday
  - Conditions at some locations may require different work hours
  - Residents notified at least two days prior to all construction activities
- Construction activities may include:
  - Marking locations of utilities
  - Field inspections
  - Rehabilitation of sewer mains, manholes and laterals
  - Pavement restoration where digging is necessary

 WSSC Water coordinates with local and state agencies, as well as other utilities for all planned work to avoid potential conflict and minimize disturbances to neighborhoods.

# What to Expect During Construction cont.

- Reliable sewer service will be maintained during construction.
- Street parking will be limited on streets with <u>active</u> construction:
  - 48-hours advanced notification will be provided
  - NO PARKING signs will be posted
  - All roads will remain accessible at all times during construction; however, certain activities <u>may require temporary closures</u> and delays
- Access from the public roadway to businesses and homes will be maintained at all times.
- Entry into homes is NOT required.

### **Traffic Impacts**

- Certain construction activities may require temporary changes to traffic patterns:
  - Traffic will be managed to minimize community disruptions
- Access to homes maintained during construction:
  - Access into homes is <u>NOT</u> required
  - Access onto private property is generally **NOT** required
- Parking restrictions:
  - WSSC Water will provide 48-hour advance notice (denoted by "No Parking" signs) prior to any parking restrictions
  - Any vehicles not been removed from the designated area will be towed to a nearby street at no cost to owner
  - Final restoration of sidewalks, roadways and landscaping will take place within 90 days of construction completion
