# WSSC WATER AT A GLANCE

★ **106 years** of no drinking water quality violations, ever.  
 ★ **Platinum Peak Performance** recognition for wastewater treatment and resource recovery excellence.

**8th**

Largest combined water and wastewater utility in the United States by population served

**1.9M**

Residents served

**162 MGD**

Water provided each day

**1000 Sq. Miles**

Size of WSSC Water's Service Area

**1,700+**

Members of Team H<sub>2</sub>O deliver on our mission

**\$114.9B**

WSSC Water supports the economic output of Prince George's and Montgomery counties

**\$1.8B**

FY2025 Operating & Capital Budget

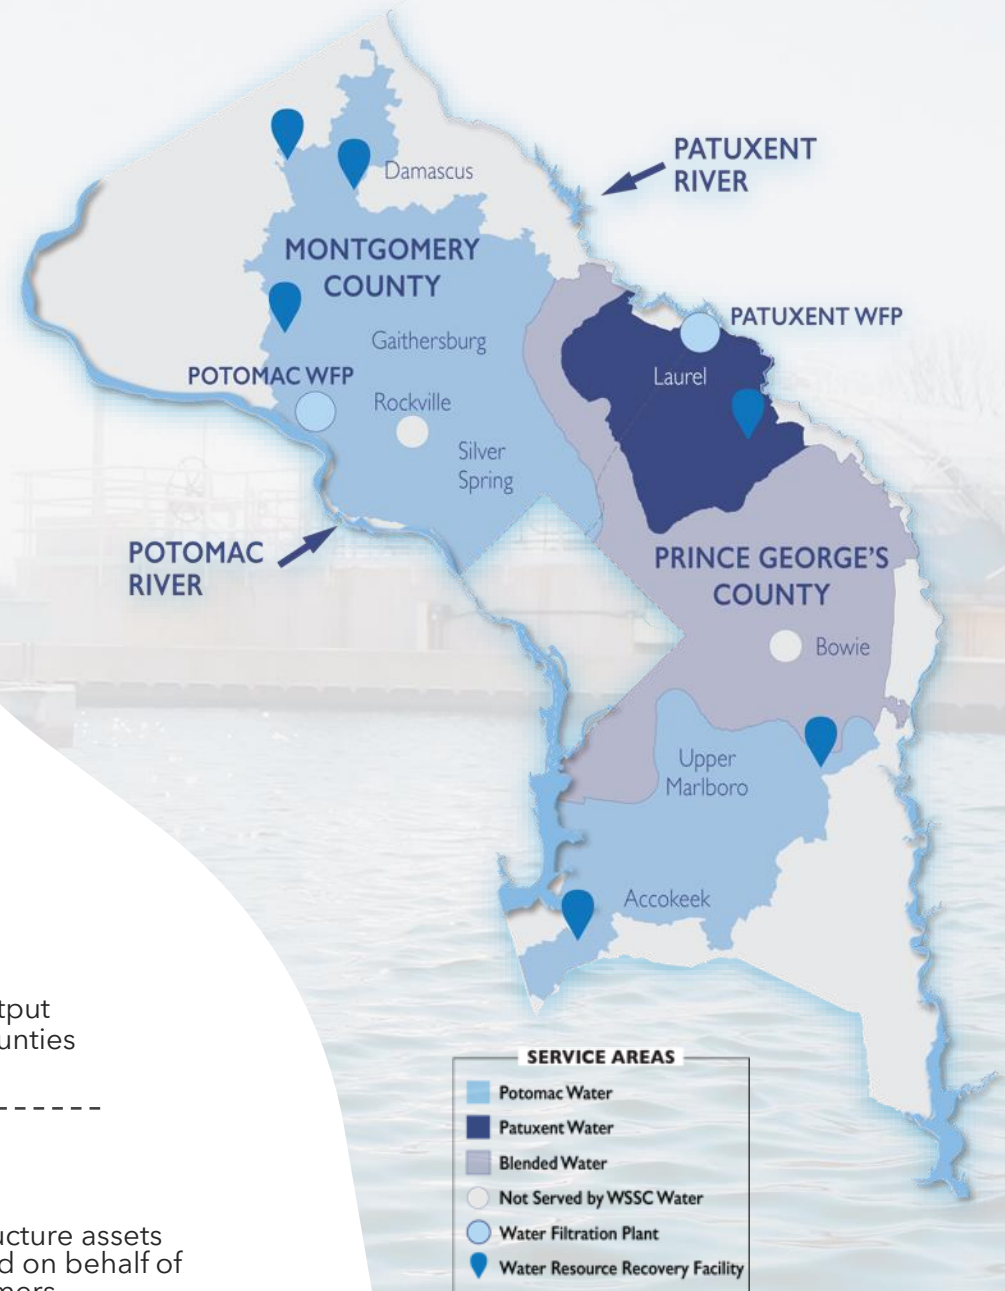

**\$5.9B**

6-Year Capital Improvements Program

**\$9B**

In infrastructure assets maintained on behalf of our customers

# Helping Our Neighbors: Water Bill Assistance

## Promise.

Sign up for an affordable, flexible and interest-free payment plan. **Customers with a past-due balance of \$50 or more are eligible.**

## CUSTOMER ASSISTANCE PROGRAM (CAP)

CAP assists approved residential customers by **waiving fixed fees, providing free annual plumbing inspections** for water leaks and **much more.**

Eligible customers can access the Water Fund multiple times, **up to \$500 per year.**

## PipeER+

Provides a loan **up to \$10,000** to finance the repair, replacement or diagnostics of sewer or water on-property service line. The WSSC Federal Credit Union administers PipeER.

# Project Overview

- New watermain will be installed within the roadway
- New house connections (service lines) will be installed up to property line or water meter/curb stop
- Replacing existing pipes helps reduce disruptions to community, environment and emergency services due to water main breaks

# Project Overview

- This project includes replacing 0.6 miles of 10-inch and 16-inch water mains and house connections up to the property line.
- The installation of 1.3 miles of new 36-inch and 42-inch transmission main.
- New water mains will be zinc-coated ductile iron pipe and polyethylene coat ductile iron pipe, with life expectancy of 100+ years.

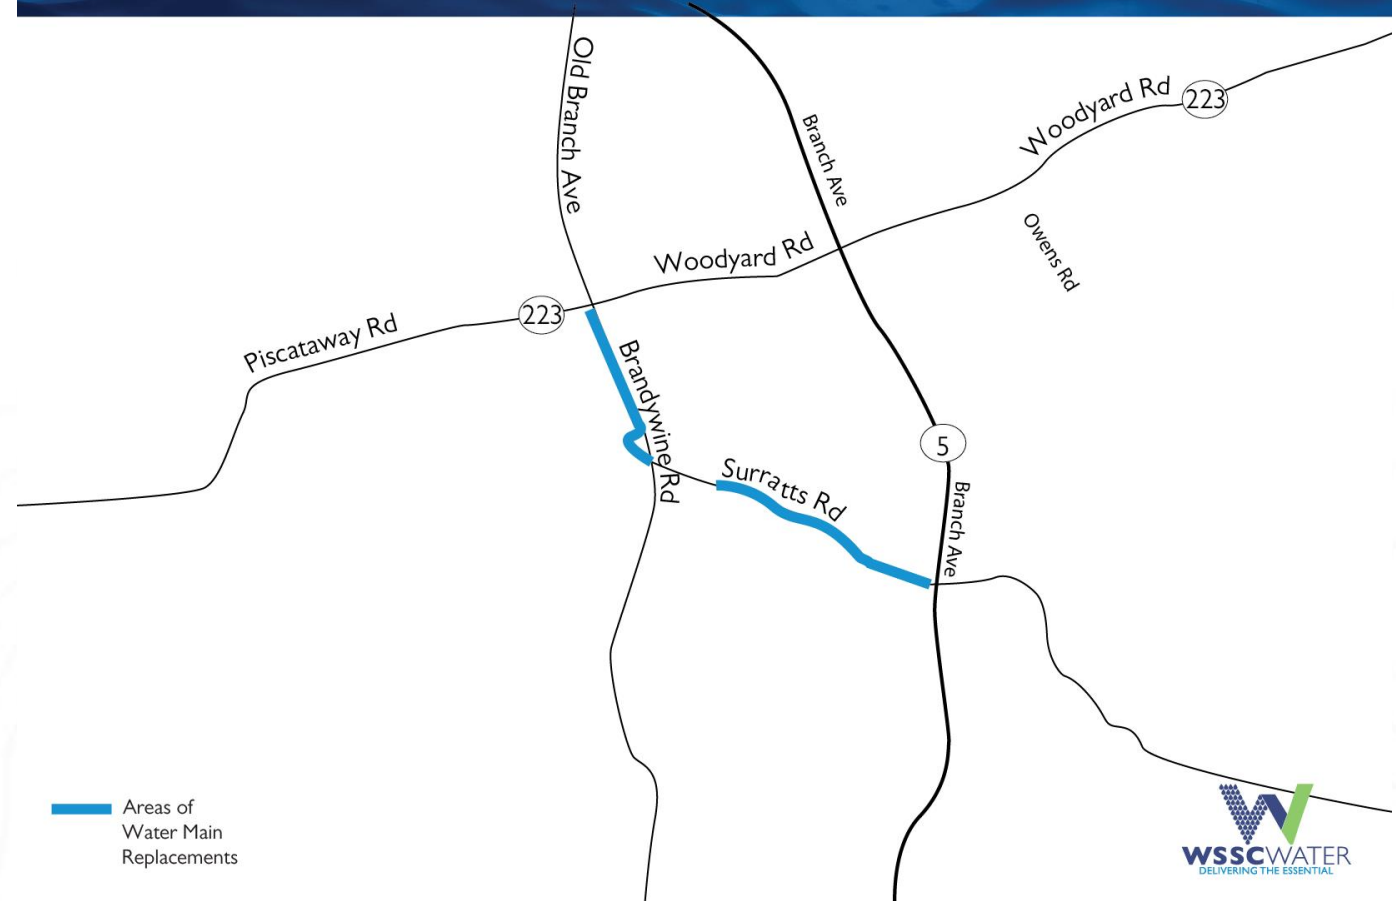

See our website ([www.wsscwater.com/zinccoatedpipe](http://www.wsscwater.com/zinccoatedpipe)) so you all can learn more about these amazing pipes!

# Project Map

## CLINTON WATER MAIN REPLACEMENT PROJECT PRINCE GEORGE'S COUNTY, MARYLAND

### Directly Impacted Streets

- Brandywine Road, between Piscataway Road and Surratts Road.
- Surratts Road, between Branch Avenue and Hale Drive.

# Fire Hydrant Installation

- WSSC Water is responsible for providing **water for fire protection** to Montgomery and Prince George's counties
- To safeguard public safety, we proactively replace and maintain our fire hydrants to monitor water pressure and flow rate, as well as inspect internal working parts to **ensure the highest level of protection**
- Per the Fire Safety Code, the maximum spacing between fire hydrants is **250-600 feet**, depending on the building structure
- WSSC Water fire hydrants are made of cast iron materials and **can last more than 50 years**

WSSC Water fire hydrants have dark green top and gray body.

# Estimated Construction Schedule

**November 2024**  
Anticipated Construction  
Start

**September 2026**  
Estimated Construction  
Completion

*Construction schedule is estimated and weather dependent*

# What to Expect During Construction

- Anticipated Work schedule: 9:00 a.m. to 3:30 p.m., Monday-Friday
  - Conditions at some locations may require different work hours
  - Residents will be notified at least two days prior to any water service disruptions or road closures
- Construction activities may include:
  - Marking locations of utilities
  - Field inspections
  - Rehabilitation of water mains and house connections
  - Pavement restoration where digging is necessary
- WSSC Water coordinates with local and state agencies, as well as other utilities for all planned work to avoid potential conflict and minimize disturbances to neighborhoods

# What to Expect During Construction (cont.)

- Open-cut construction method, which involves cutting and excavating a section of the pavement
- This construction method does create noise and dust

# Temporary Water Service Installation

- Above ground (bypass) pipes may be installed to maintain water service to your home
  - Bypass pipes are not used in cold weather months (November 15<sup>th</sup> – March 15<sup>th</sup>)
- These pipes will be placed along the roadway edge and provide the same quality of water to your home.

# Traffic Impacts

- Certain construction activities may require temporary changes to traffic patterns
  - Traffic will be managed to minimize community disruptions
- Access will be maintained to homes during construction
  - Access into homes is **NOT** required
  - Access onto private property is generally **NOT** required
- Parking restrictions
  - WSSC Water will provide 48-hour advance notice (denoted by “No Parking” signs) before any parking restrictions
  - Any vehicles not removed from the designated area will be towed to a nearby street at no cost to owner
- Final restoration of sidewalks, roadways and landscaping will take place within 90 days of construction completion

*Final restoration may take place in phases when possible*

# Signage and Restoration

- Construction signs with contact persons placed throughout project area
- Projects completed during winter months are permanently paved and restored to their original state or better the following spring

# Project Summary

- Existing distribution system water mains are near the end of their useful lives
- WSSC Water is replacing the distribution system water mains and water house connections up to the property line
- WSSC Water will minimize service disruptions during construction
- WSSC Water will coordinate work activities with property owners in the project area
- WSSC Water will restore all areas impacted by construction activities at the end of the project
- WSSC Water's goal is to provide a reliable water system to customers
