Sewer Service Category:	Email:
Water Service Category:	Other:

### Reason For Request / Justification:

### All packages submitted for review must contain the following items:

1. Fully Completed Service Connection to Large or Small Main Request Form (this form)
2. 200' Sheet or WERI (EGIS Webmap) sketch with WSSC mains labeled and property identified.
3. WSSC main As-Built plan and profile **Highlighted** at the proposed connection location.

### Select Connection Category Type(s) Requested:

- A. Service connections to sewer main(s) 15-inches through 27-inches
- B. Service connections to water main(s) 20-inch diameter or 24-inch diameter.
- C. Service connections to existing low pressure sewer systems.
- D. Service connections to existing water and/or sewer mains 4-inches in diameter and smaller.
- E. Upgrades on existing connections to a larger service connection size.

### Sewer Main Connections within 400' of a force main or Low-Pressure Sewer System:

Note: Due to possible odor problems within homes, service connections closer than 400- feet from a grinder system or a force main's transition manhole will generally not be approved.
