**CAP
LEAK REPAIR
PROGRAM**
A WSSC WATER &
HABITAT FOR HUMANITY
METRO MARYLAND
PARTNERSHIP

Attention WSSC Water CAP Customers!

We have partnered with Habitat for Humanity Metro Maryland to repair or replace on-property residential plumbing leaks to help save customers money and conserve water.

CAP-enrolled customers can receive up to \$9,000 per year in repair services.

How It Works

Customers enrolled in CAP who suspect they have an on-property leak should contact WSSC Water at 301-206-4001 to receive a free annual plumbing leak investigation. If a leak is found, Habitat for Humanity Metro Maryland will secure the services of qualified plumbers and oversee all repair work.

Eligible services include:

Repair or replacement of:

- Leaking plumbing fixtures, such as toilets, faucets, water valves, shower heads or external hose bibs
- Internal water pipes
- External on-property water service lines
- Leaking water heaters

To receive these services, the applicant must:

- Be a WSSC Water CAP-enrolled customer at the time of the application. CAP is WSSC Water's Customer Assistance Program.
- Own and reside at the property.
